

# MOVING YOUR FUTURE

NSK is a world leader in bearings, electrically assisted steering systems for the automotive industry, precision and mechatronic products. Our products are used, among others, in wind turbines, machine tools, as well as in vehicles of almost all reputable car manufacturers. NSK originates in Japan and employs nearly 32,000 people in more than 30 countries around the world.

We are looking for a candidate with higher education for the position:

## Technician

Ref. KIE/01/ETC/0324

Location: Kielce

**Recruitment is covered by the "Join NSK" Program (referral bonus).**

This is the job for you if you are looking for a position where you can develop your engineering skills while working in an international environment.

### Your responsibilities will include:

- Works within a team with activities and tasks set by the project leader
- Responsible for carrying out test activities as defined by the project leader
- Preparation of documentation, test bearings, test heads, calibration and setting up of instrumentation prior to testing
- Maintain and monitor progress of tests to ensure successful completion with regular feedback on progress to the project leader

### We are looking for you if:

- You have Technical education - mechanical
- 2 years experience on a similar position
- You are speaking communicative English (min. level B2)
- You have basic understanding of rolling element bearing design and manufacture

### If you want to join us:

- Send your CV, including the ref. number in the title, to the following address: [cader-m@nsk.com](mailto:cader-m@nsk.com)
- Don't miss the application deadline (02/02/2024)
